

**FOR IMMEDIATE RELEASE:**

## **SAM™ Awarded Cloud Solution Platinum Winner, *Campus Security & Life Safety* - Secure Campus 2021 Competition**

**GALVESTON, TEXAS, MARCH 30, 2021:** VSS is honored to announce that our comprehensive security management solution SAM™ was awarded the highest “Platinum” award, “...for outstanding campus security services and products,” in the “Cloud Solutions & Services” category by *Campus Security and Life Safety’s* Secure Campus Awards 2021 independent panel of judges from the security industry.

Top entries were selected and named winners using criteria including: Features, Innovation, User Friendliness, Interoperability, Quality, Design, Market Opportunity and Impact in the Security Industry, Technical Advances, and Scalability.

*“We are excited that Campus Security and Life Safety has recognized the value of our SAM product that provides proactive alerts while enhancing existing investments in security and management.” –Victoria Newsome, VSS President*

SAM™ is VSS’ comprehensive security management solution that provides a single user interface (UI) for security systems/devices from multiple manufacturers, live and recorded video, interactive maps, and managed users; and, can be configured on the fly to user specifications to limit and simplify or expand and enrich the end-user experience. Our customers regularly integrate: third-party devices and applications such as mass notification systems, alarm/alert systems, grading/attendance, incident reporting and facilities management.

**About VSS:** VSS is a software, hardware and services company specializing in creating Security Management, Physical Security, Notification, and Video Surveillance applications for premise, enterprise, or cloud environments.

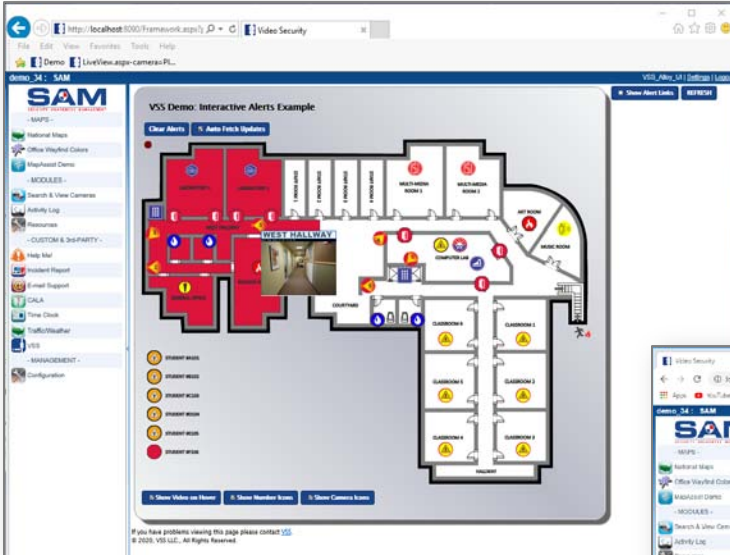

VSS is headquartered in the Strand Historic District on Galveston Island, Texas.
